

ANVIL MEANS TRADITION

Since 1971, Anvil has specialized in providing full-service engineering, procurement, technical, and construction management services to the refining and petrochemical industries. We have always demonstrated an unwavering commitment to excellence.

We have a history of solid client relationships - some for more than 35 years. We've seen that when projects meet or exceed client expectations and are completed on time, our clients reward us with more work.

We foster close, sustained client relationships because they enhance communication, understanding and productivity, and result in high performance project teams delivering successful projects.

Proven Expertise

- Refining
- Refinery Revamp
- Oil & Gas Drilling and Production
- Modular Design
- Turnaround-driven Projects
- FCCU Revamps
- Coker & Crude Unit

Technical Services

- Safety, Health, and Environment
- Nondestructive Examination (NDE)
- Metals Testing
- Welding Engineering
- Metallurgical Services
- QA/QC

Engineering & Design Services

- Project Management
- Process
- Equipment & Piping
- Civil & Structural
- Control Systems & Electrical
- Environmental
- HVAC and Fire Protection
- Project Procurement

ANVIL IS A TEAM

OUR PEOPLE *ANVIL'S PEOPLE ARE EXCEPTIONAL*

- Anvil is 100% employee-owned; our actions determine our future.
- We have exceptionally well-qualified, enthusiastic, dynamic people with a vested interest in every project's success.
- We are client focused; we identify your needs and requirements, and do our best to meet – and exceed – your expectations.
- We continually explore new and better ways to help you meet your business objectives.
- We promote innovative ideas and technologies, and apply them judiciously.

OUR VALUES *ANVIL IS A GREAT PLACE TO WORK*

We are guided by the operating principles and practices that define our culture and value system:

- Safety, Health, and Environment
- Honesty and Integrity
- Rationality
- Considerate Behavior
- Professional Competence
- Best Practice Implementation
- Financial Stewardship
- Continual Improvement and Innovation

Exceptional Performance

Providing world-class performance
Solving your most difficult engineering challenges
Delivering projects on time and on budget

Client Satisfaction

Listening and acting in your best interest
Meeting—and exceeding—your expectations
Working towards our mutual success
Delivering consistent and predictable results

Field Services

Construction Management
Field Engineering
Field Inspection

Support Services

Project Controls
Engineering Quality
Information Technology
Technical Writing

On-going Support

Pre-commissioning & Startup
Operating Manuals
Computer-Based Training (CBT)

Project Management

Promoting Capital Stewardship
Executing Projects by Phase
Estimating the Total Installed Cost (TIC)
Providing EPC Scheduling
Implementing Value Improving Practices

WE UNDERSTAND

SAFETY SAFETY IS FIRST, LAST, ALWAYS AND IN ALL WAYS

- Our Safety Program for injury prevention involves everyone in identifying and eliminating hazards.
- We are dedicated to incorporating safety into our designs.
- Anvil has received numerous Contractor Safety Awards from the National Petrochemical and Refiners Association (NPRA) and others for our attention to safety.

LEADERSHIP SUCCESSFUL PROJECTS DON'T JUST HAPPEN

- Our project teams involve all stakeholders: owner, contractor, supplier, and engineer.
- We collaborate with other firms when needed to create the best fit-for-purpose project team.
- We take ownership of your projects.
- Our teams take responsibility for their actions.
- We apply sophisticated project management techniques and implement industry best practices.
- We optimize fabricator and contractor performance and field efforts.

QUALITY EXTERNAL BENCHMARKING BACKS UP OUR CLAIM

- Anvil's ISO9001 - 2000 based Quality System ensures we deliver quality work by getting the right people doing the right work at the right time.
- We plan every project and work to that plan.
- Our team tracks project performance against the plan.
- We ask you for feedback.
- Our teams apply lessons learned to future projects.

VALUE WE FOCUS ON DOING IT RIGHT

- Anvil understands our clients' cost-conscious environment.
- Our teams develop innovative ideas that creatively and effectively solve engineering challenges, saving you money.
- We strive to give you the best value for your dollar.

Engineering

Providing experienced professionals
Applying Industry Best Practices
Ensuring Mechanical Integrity & System Function
Delivering Fit-for-Purpose Designs

Procurement

Sourcing world-wide
Expediting
Inspecting

Communication

Involving all stakeholders
Developing cohesive, close-knit, integrated teams
Providing tools to facilitate communication
Preventing Surprises

WE ARE COMMITTED

TO CLIENT SERVICE *OUR CLIENTS WILL SPEAK FOR US*

- Anvil fosters a “client first” philosophy, and applies it to every client, regardless of project size.
- We efficiently respond to your needs with experienced resources.
- Our teams look out for our clients’ best interest.
- We are dedicated.
- We know that our success depends upon your success.

TO LONG-TERM CLIENT RELATIONSHIPS

- Anvil focuses on building relationships.
- Our client relationships involve mutual trust and commitment.
- We are not interested in short-term gains at the expense of long-term associations.

TO PROJECTS *OUR WORK SPEAKS FOR ITSELF*

- Every project is important to us.
- We excel on complex and challenging projects.
- Our teams remain current and aware of industry-wide innovations in technology or project execution technique.
- We judiciously implement technologies, innovations, and sophisticated techniques on projects.
- We clearly define client objectives, and then organize and plan the project.
- Our teams deliver on time, on budget products that are cost effective and constructable.

ANVIL IS THE RIGHT CHOICE

OUR SUCCESSFUL RECORD

- Anvil has a long-proven record of successfully delivering completed projects of various sizes.
- We bring this experience to all projects - from maintenance, to revamp, to grassroot installations.

YOU CAN DEPEND ON US TO DELIVER.
